

Dear Chairman Powell and Commissioners,

Please allow me real choice! I need to hear what the candidates have to say on important issues. I need you to see that television provides that. Surely we have journalists who do not want to pander to the 10 second attention span, who wish to question the candidates on the real issues and help the public understand where they stand. Please help promote meaningful coverage of political campaigns!!! Thank you.

Sincerely,

Susan G. Hatch
